

CUSTOMER TESTIMONIAL

The Customer:
Solarcentury one of Europe's most experienced solar energy companies.

The Challenge:
Supply high quality, competitively priced furniture that met the Company's high environmental standards.

www.solarcentury.com

Solarcentury, one of Europe's most experienced solar energy companies was founded in 1998 to design and supply solar energy solutions for the built environment.

Hayley Whitman, Office Manager explains "As a renewable energy pioneer Solarcentury operates very high environmental standards and seeks suppliers with a similar commitment.

Blue Line is a perfect example of the type of supplier with which we like to be engaged so when the Company needed high quality, competitively priced furniture for its Chessington warehouse complex, we turned to Blue Line for a solution".

Solarcentury's requirements included meeting room furniture and office desking with privacy screens. All the products specified and supplied by Blue Line featured a Beech finish and were Forest Stewardship Council, FSC certified, ensuring that all timber elements were sourced from responsibly managed forests independently certified under the FSC scheme.
